Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1 to 9, drawn to a method for identifying an owner of a portable device, comprising computing and encoding an identification code into an acoustic signature, decoding the acoustic signature at a service provider, transmitting and comparing the identification code at a certification service to produce a true owner, and transmitting a digital certificate corresponding to the true owner from the certification service.

Group II, claim 10 and 11, drawn to a method for identifying an owner of a portable device, comprising selecting an arbitrator seed number by an independent arbitrator and a system seed number by a system administrator, computing a portable device identification from the system seed number and a portable device serial number, computing an card arbitrator number from the arbitrator seed number and the portable device serial number, applying a first function to the card arbitrator number and a second function to the result and to the card identification, and applying a reverse of the second function to compute the personal device identification.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Art Unit: 2654

3. Group I relates to generating acoustic signatures and digital certificates from an identification code of a portable device at a service provider. Group II relates to encryption from seed numbers by functions. Thus, Group I concerns digital certificates, and Group II concerns encryption from seeds.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
